

Medicus Practice+ Managed IT Services

Worry-Free, Flat Fee

System downtime, viruses, spy ware, losses of productivity...

Are the computer systems you rely upon to run your practice not working consistently and as expected? These distractions are unnecessary, time consuming and very expensive. At Medicus Solutions, we understand this. We also know that practices are constantly challenged by the task of managing the demands of their healthcare systems, while coping with continuous technology challenges.

Our focus is to keep your IT systems **operational, available** and **secure** so that you can focus on the everyday demands of your patients and your practice, managing costs and increasing revenues. We're here to help you realize the productivity gains and ROI you have been expecting from your computer systems all along.

Medicus Practice+™ provides affordable, proactive, and inclusive IT management and support for healthcare practices. Utilizing our unique IT automation framework for providing managed services, Medicus Solutions provides proactive services to keep your systems up and running and your people and practice productive.
